

Exterior Wrought Iron Grilles

The FerraLites series features real hand-made wrought-iron grilles, mounted to the exterior side of the doorlite. Three unique design series are each powder coated for durability with an Antique Black finish. The grilles are "operable" and use grille hinges, which allow the door or sidelite wrought iron grilles to be opened to easily clean the outside glass surface. Fluted glass texture options is available for each iron design. Each external wrought iron grille design has been crafted by artisans and is individually crafted by hand and will vary. This variance is a feature of wrought iron and adds to the beauty and appearance of the wrought iron grille.

Decorative Glass

No one makes a better quality decorative glass insert panel. Our decorative glass panels are Quality Crafted™ in our workshops to assure you of excellent craftsmanship and elegant design. These VitriLites offer beveled glass center groupings or clusters of quality hand beveled clear glass pieces, which we combine with crystal obscure glass backgrounds and borders using a variety of glass textures. This combination affords maximum beauty and privacy. Each individual piece of beveled glass in these cluster panels is hand-cut and beveled to maximize the brilliance and sparkle of each beautiful glass design. Six different design series are available in our VitriLites.

GBG Grilles Between the Glass

The wrought-iron inspired VinciLites™ series of decorative "grille-between-the-glass" or GBG doors are unique in their appearance, and feature simulated hand-tooling marks and new and unique designs. Available in all door sizes, these eight design series feature a decorative grille finished in antique black, mounted between two pieces of tempered safety glass. Each decorative GBG design has three glass texture options available with varying obscurity levels – all of which allow daylight to enter. All VinciLites designs have been created and are unique to GlassCraft, who has multiple patents pending on this product and process.
